

TWEED WATER FORUM & MEET THE CANDIDATES

SATURDAY 18TH AUGUST

9.30am to 12.30, Murwillumbah
Autumn Club, next to Library

Hosted by the Caldera Environment Centre and the Northern Rivers Guardians (NRG)

An opportunity to meet Council Candidates and hear their views on Water strategies for Tweed's future.

The Workshop will also include 2 Water Experts presentations:

Amanda Otto is Coordinator of Recycled Water for Gold Coast Water (Gold Coast City Council) and is responsible for the management of the Pimpama Coomera Water Futures Master Plan.

The Pimpama Coomera Project aims to create a sustainable water future by taking a holistic approach to urban water cycle management region in one of the fastest growing residential area in Australia. Coomera Waters is well established, and in 2002 was named the champion project in sustainable development by the QLD Environmental Protection Agency & Urban Development Institute of Australia (UDIA).

Craig Zerk is a civil and environmental engineer with 35 years of experience in the water industry. Retired founding director of GeoLINK Consultancy, he also worked as the water engineer for Ballina Shire Council for 7 years.

A chance to really Understand our Water Options, ask questions of the water experts, and hear from Council Candidates their ideas on water security for the Tweed.
